Ed's Notes

Since we are going to have a tour using manifold cookers, I thought I would print some guidelines that I excerpted from the Texas T Website. The article was written by Jennifer Lilliker. I will print more information in our next issue.

Basic Manifold Cooker Guidelines

Before we get started with any specifics I think it is beneficial to discuss the basics of the manifold cooker. The key to manifold cooking is to help the heat distribute evenly. The exhaust manifold on the Model T can reach up to 600 degrees F and the part of the cooker that is touching the manifold can get almost that hot. The front of the manifold can get hotter than the rear outlet as well.

Your job as a manifold chef is to try to regulate that heat so that it evenly cooks and doesn't burn the food in the cooker. One way to achieve that is to drive slower and put less load on the engine. Not a great option if you want to get anywhere at all. You can often stop often and turn the food and check that it isn't burning, also not a great option.

The best method I have found to help regulate the temperature is to provide liquid to transfer heat around the food. You can use the cooker as a boiling pot of water and add food to it, or you can cook recipes that are full of liquid. You still may have to get out once or twice and stir and check the food, but it is much less likely to stick and burn.

It is also very helpful to know your car and how hot it runs. The driving conditions matter, too. If you are going uphill on a hot day you might have to be careful not to burn your food, whereas if it is a cool day with flat terrain it might take a bit longer than you thought for the meal to be done.

The following is a list of recipes I have tried and liked. They are simple, easy, and use ingredients that are easy to find and carry with you. Let them serve as a base for your cooking. Try them and then expand with others that you develop, using the basics of cooking mentioned on the previous page. Many everyday recipes can be adapted to cook on a manifold with a little creativity. Don't forget that any can of soup can be heated up and served with sandwiches for a delicious and very easy lunch.

King Ranch Chicken: 1 can cream of chicken soup 1 can cream of mushroom soup 1 can Rotel tomatoes and chilies 1 can cooked diced chicken Corn tortillas, torn into large pieces Shredded cheese Diced onions, if desired
Open the chicken and the soups and mix together. Open the Rotel and mix (include all the liquid). Add onions.

After all ingredients are mixed, spoon a small layer into the cooker. It should be slightly runny; if not, add some water. Top with layer of tortillas and cheese. Repeat layers till out of ingredients or cooker is full. Cook till bubbly. Hint: Try to keep the tortillas from touching the sides to avoid sticking and burning.

Pot Roast: 1 can beef broth 1 can carrots 1 can new potatoes 1 can mushrooms 1 small roast of beef (can cut into smaller pieces)

Open the can of beef broth. Place the roast in the cooker and pour broth over the meat. Drive for a few miles and check meat. Once cooked most of the way through, add cans of vegetables and drive till everything is heated through.

Chicken Pot Hole Pie/Chicken and Dumplings: 1 can cream of chicken soup 1 can mixed vegetables 1 pkg pie crust dough 1 can cooked diced chicken

Open the chicken and the chicken soup and mix together. Open the mixed veggies and mix in with some of the liquid till a good consistency is achieved. After all ingredients are mixed, top with dough. Make sure dough is not touching the sides of the cooker.

Montgomery Village — REMTC Car Show

July 13th, 2014

Bring your Model T to the Village Courtyard on Sunday morning and spend the day, have lunch and talk about our favorite subject, the Model T Ford. We will dress in vintage clothing, hand out balloons to the kids, promote our Club and have a wonderful day shopping with and enjoying the Village merchants.

More details to follow but you will need to sign up with Vince Gregoire to participate.

This is becoming a yearly event that the Club enjoys. Montgomery Village management is very generous with gift certificates and free breakfast and lunch.

In that spirit, only members that fully participate by bringing their Model T's for display will receive compensation for their participation. No exceptions.

Very Important — Bring a piece of rug to put under your car to catch any drips!!!!

We will meet under the clock tower in Montgomery Village at 9:00 am. Club members dress in vintage attire and plan to spend most of the day until around 3:00 pm. We will have a table set up with applications available, business cards, and The Vintage Magazine.

Victorian Tea in the Garden

We arrived on a lovely Saturday afternoon at the home of Nanette and Richard Chuck. They had transformed their garden into a lovely Victorian outdoor tea room. The food was delicious, all three courses, from appetizers to tea sandwiches and of course, dessert. Nanette was the decorator and had help from Fran Faraudo and Jeannine Clary with the

food and tea. The lovely Jasmine, Nanette's granddaughter, served our tables while we had lively conversation and an afternoon enjoyed by our REMTC ladies.

The gents in their Model T's had a leisurely lunch at Union Hotel in Occidental. Thanks to Nanette, Richard and Jasmine for making us feel very special.

Hamburger Ranch and Coppola Museum

The Gregoires hosted the morning get together with pastries and coffee in their Palm Springs like, backyard. Andy and Jeannine Clary led the tour up to Cloverdale to the Hamburger Ranch for yummy food and great service.

After lots of conversation and laughs we toured down the frontage roads to the Coppola Museum for a look at the movie collectables and the Tucker automobile.

Thanks to the Gregoire's and the Clary's for a fun tour put together quickly and well planned.
