OPENING THE HIGHWAYS TO ALL MANKIND

Back of all the activities of the Ford Motor Company is this Universal idea — a wholesome belief that riding on the people's highway should be within easy reach of all the people.

An organization, to render any service so widely useful, must be large in scope, as well as great in purpose. To conquer the high cost of motoring and to stabilize the factors of production — this is a great purpose. Naturally it requires a large program to carry it out.

It is this thought that has been the stimulus and inspiration to the Ford organization's growth, that has kept the incentive to developing interchangeable resources, standardized facilities and an industrial organization which in the process the world has never known.

In accomplishing its aims the Ford institution has never been daunted by the size or difficulty of any task. It has spared no toil in finding the way of doing each task best. It has dared to try out the worst with conspicuous success.

Such effort has been amply rewarded. For through this organization, the motor car which is contributing in no large measure toward making life easier, pleasanter and more worth while has been made available to millions.

The Ford Motor Company views its situation today less with pride in great achievements than with the sincere and sober realization of new and larger opportunities for service to mankind.

Mike & Jean Chirhart's 1912 C Cab Delivery

Well, it's been a little over a year since I purchased my 1912 Delivery Car. In my research I discovered that Henry Ford made only 1845 of this model in 1912 and then stopped making it. I guess that's why they are so hard to find. As I was putting it together I kept thinking about what kind of name (theme) I wanted to put on the side of the car. I started thinking about my dad and the fact that he used to repair radios back in the 20's

and 30's and thought he would have gotten a kick out of driving something like this to repair radios for his customers. So...I decided to name the car "Jerry's Radio Repair" after my dad Jerome. The phone number is typical of that era. RR for radio repair and the number are my dad's birth month and day. I plan to make the interior look like a radio repair car. In fact my son-in-law's grandfather used to repair old radios (he still has a shop in San Francisco) and has donated over a 100 old radio tube boxes for me to put on shelves in the back of the car. My plans are to have this all completed by our tour in July. It's been fun project....I know my dad is grinning from ear to ear...where ever he is....

Thanks Mike for the nice tribute to your dad and the Model T. Perfect for Father's Day!

Forestville Parade

Montgomery Village — REMTC Car Show

July 13th, 2014

Bring your Model T to the Village Courtyard on Sunday morning and spend the day, have lunch and talk about our favorite subject, the Model T Ford. We will dress in vintage clothing, hand out balloons to the kids, promote our Club and have a wonderful day shopping with and enjoying the Village merchants.

More details to follow but you will need to sign up with Vince Gregoire to participate.

This is becoming a yearly event that the Club enjoys. Montgomery Village management is very generous with gift certificates and free breakfast and lunch.

In that spirit, only members that fully participate by bringing their Model T's for display will receive compensation for their participation. No exceptions.

We will meet under the clock tower in Montgomery Village at 9:00 am. Club members dress in vintage attire and plan to spend most of the day until around 3:00 pm. We will have a table set up with applications available, business cards, and The Vintage Magazine.
